March 2021

Dear friend,

**"We can do more together, by pooling our resources,  
than we could ever dream of doing individually"**

This Kickstart Evening is intended to re-inspire current donors and galvanise potential ones into getting on board. Feel free to invite friends so they can learn more and become part of the power of collective giving.

We will have a couple of short presentations by last year's grant recipients, a brief run down of how this year will run, light refreshments and a chance to check out the exhibition.

We look forward to seeing you there.
